**2 Timothy 3:16-17**

**Review: Galations 5:13b**

**week one**

These are good verses to learn by listing the reasons the Bible is profitable. There are four of them. Can you find them? Then write down the first letter of each of the reasons to help you remember them.

For instance, in the King James Version the reasons are:

1. doctrine
2. reproof
3. correction
4. instruction in righteousness

You could remember them by thinking **Dan really carves ice** (think of an ice sculpture).

### Discovery 3:3

What do YOU do during church? You aren't memorizing your verses, are you? But you could memorize these verses in the car on the way home!

Do you have friends who are on this section too? Maybe you could do a project together.

week four

Hebrews 10:24-25

Another church verse – but we know you can do it. Ask your dad or mom to make a list of all the words of these verses. But – they need to scramble the letters. You need to put the letters in the right order so that it spells the correct words.
